

National Space Day Event

22
Aug
2025

The Vedanta Society of the Physics Department celebrated National Space Day on 22nd August 2025 with great enthusiasm and participation from both students and faculty. The program highlighted India's remarkable progress in space research and encouraged students to look beyond textbooks.

With activities like presentations, poetry, posters, and a quiz, the event became a platform to share knowledge, creativity, and teamwork in a lively and inspiring way.

INAUGURAL SESSION AND WELCOME

The celebration of National Space Day 2025 began with a formal inaugural session. The event organisers extended a warm welcome to the Chief Guest, Prof. Neelam Guleria (Head of the Department of Physics), along with all the invited professors from various departments. Each professor was honored with a rosette as a gesture of respect and appreciation. This collective welcome created a cordial atmosphere and highlighted the spirit of togetherness within the department. It marked the graceful beginning of the program and set a respectful tone for the sessions that followed.

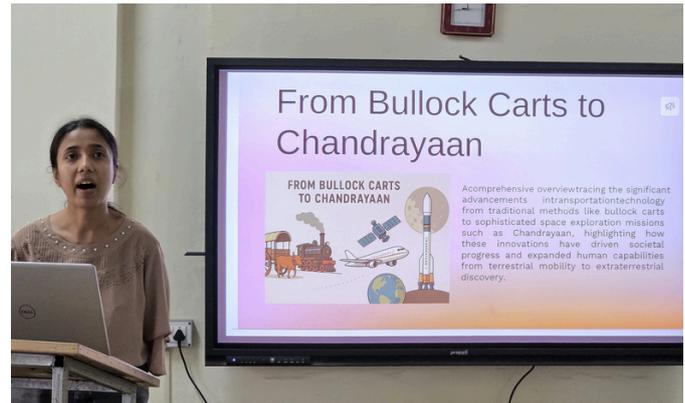

WORDS OF ENCOURAGEMENT FROM PROFESSORS

Following the welcome, several professors from the department and other disciplines addressed the gathering. They shared their valuable insights and experiences, while also encouraging the students to stay curious and passionate about the field of space science. Their words highlighted the importance of dedication, research, and teamwork in academic as well as professional growth. These speeches not only motivated the first-year students but also inspired the seniors to continue striving for excellence. The interaction created an atmosphere of learning and enthusiasm, adding depth and meaning to the celebration.

STUDENT PRESENTATIONS: **FROM BULLOCK CARTS TO CHANDRAYAAN**

The highlight of the academic session was the student presentations, based on the theme “From Bullock Carts to Chandrayaan: The Genesis and Triumphs of ISRO.” Students enthusiastically traced India’s space journey, beginning from its modest experiments in the 1960s to the grand success of Chandrayaan missions. The talks covered not only ISRO’s technological achievements but also the vision, determination, and resilience that shaped India’s space program.

POETRY RECITATION: **STARDUST AND SOUL – A VEDANTIC PERSPECTIVE ON THE UNIVERSE**

Another engaging part of the celebration was the poetry recitation, centered around the theme “Stardust and Soul: A Vedantic Perspective on the Universe.” Students expressed their thoughts on the cosmos through original verses as well as carefully chosen published poems. The recitations beautifully wove together science, spirituality, and philosophy — connecting the vastness of the universe with the inner journey of the human soul.

POSTER MAKING CONTEST:

EXPLORING THE COSMOS – INDIA’S JOURNEY TO THE STARS

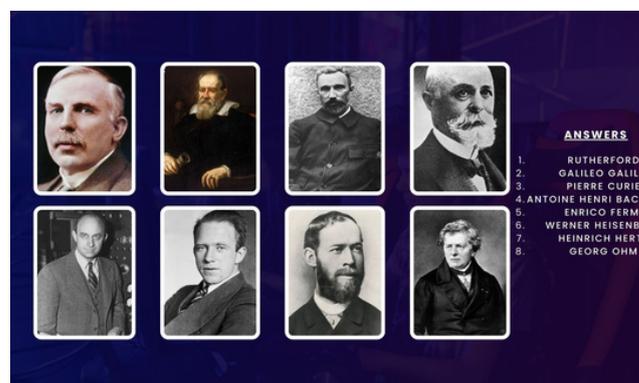

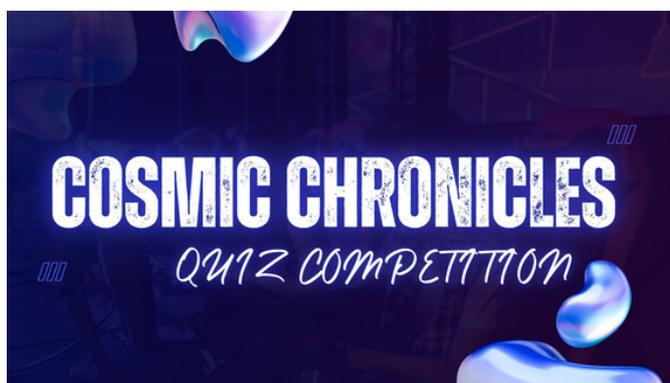

The event also featured a vibrant Poster Making Contest on the theme “Exploring the Cosmos: India’s Journey to the Stars.” Students showcased their creativity by designing thought-provoking posters that blended art with science. Each poster carried a unique interpretation of India’s space journey — from rockets and satellites to Chandrayaan and beyond.

QUIZ COMPETITION:

COSMIC CHRONICLES – A QUIZ ON INDIA’S SPACE SAGA

The final session of the celebration was the much-awaited Quiz Competition, conducted under the theme “Cosmic Chronicles: A Quiz on India’s Space Saga.” The quiz tested participants’ knowledge of space exploration, with special emphasis on India’s milestones in space science. The rounds were filled with energy and excitement, ranging from direct questions to quick-response challenges. Teams showcased not only their grasp of facts but also their presence of mind under pressure. The audience too was deeply engaged, cheering enthusiastically and learning along the way.

Prize Distribution & Winners

The winners from different events including presentations, poetry, poster competition, and quiz were honored for their outstanding performances. They were awarded certificates and mementos as a mark of appreciation and encouragement. This gesture not only recognized their hard work but also motivated other students to participate with enthusiasm in future activities.

Closing Moments

The event concluded with a group photograph capturing all participants, winners, and faculty members together — a perfect memory of the celebration. Some candid moments from the intermissions also added warmth and joy to the occasion, reflecting the spirit of unity and enthusiasm among the students and teachers alike.

Event Attendance Sheets

The following sheets present the record of student attendance for the National Space Day celebrations held on 22nd August 2025. These documents provide an official record of the students who actively participated in the event.

S.no.	Name	Class	Roll No.	Sign.
1	Tanvi Kumari	BSC-15 th	25PCH010	Tanvi

Team Behind the Event

The success of the National Space Day event was made possible by the sincere efforts of the Organizing Committee and the enthusiastic participation of MSc Physics third semester students. From planning the sessions to ensuring smooth coordination on the event day, their teamwork and dedication played a vital role in shaping the celebration.

Acknowledgement

I sincerely thank all the teachers for their guidance, support, and encouragement throughout the event. I am also grateful to the organizing committee and the MSc third semester students for their dedicated efforts in planning and managing the program. I extend my thanks to all the participants for their enthusiastic involvement and to everyone present on this occasion, whose presence added warmth and value to the celebration of National Space Day.
